

Annual Report 2021-2022

Centre for Entrepreneurship Education & Development (CEED)

PRESENTED TO

Dr. Ashok Chitkara

Chancellor, Chitkara University

A renowned mathematician and a legendary Academician. Ashok K Chitkara is the Chancellor of Chitkara University, Punjab and Chitkara University, Himachal Pradesh. His perspective and far-sightedness in the field of education have rendered future promising prospects in the fullness of time. His contribution to the field of pedagogy is serviceable both nationally and internationally, as he always believes that education makes minds, not careers. Dr. Ashok K Chitkara has always been at the forefront and is passionate about teaching and mentoring students since the beginning. Born as a teacher, his journey towards excellence started with a foray into the field of Mathematics, being an optimal mathematician with over 36 years of teaching and mentoring experience. A true entrepreneur at heart.

Dr. Madhu Chitkara

Pro-Chancellor, Chitkara University

Dr. Madhu Chitkara is the founder of Chitkara Educational Trust, an organization of great repute & distinction. An eminent academician, and an innovative entrepreneur, she has articulated and designed the road map for the Trust & have actively contributed to its tremendous growth and recognition in all these years and is spreading the light of education in the life of tens of thousands of people. With a passion for academics and great business acumen, she has had a diversified career & variegated experience in the field of education spanning 42 years. She is highly knowledgeable, focused, a strategic leader & has a passion for excellence. She has adeptly managed numerous academic ventures and remains a true leader who leads by example, is warm, sincere and always willing to walk the extra mile to deliver on promises.

Mr. Mohit Chitkara

Vice President, Chitkara University

One of the greatest visionaries and business leaders of the region, an alumnus of Harvard Business School. Mohit Chitkara is the Vice President of the Chitkara Educational Trust, Chandigarh. He is taking his parent's legacy forward by running this institute. It now has six colleges under its name, from hospitality to the school of planning and architecture. In the coming years, Mr. Mohit would like to see Chitkara Educational Trust as the leading education provider in the country. He started with a small study centre and today, Mr. Mohit Chitkara is the VP of the Educational Trust. Based out of Chandigarh, Chitkara has seen a sharp growth since the Trust was setup in 1998. Mr. Mohit's aim is to attain a leadership position in the education space in North India.

CHITKARA UNIVERSITY - HIMACHAL PRADESH CEED VISSION

Intending to provide an environment where its students and faculty can **“Explore Their Potential”**, Chitkara University has been at the forefront of fostering innovation and incubating business ideas. Faculty members are continuously engaged in knowledge generation and dissemination, just as students are exploring ways to launch business ideas to impact society and solve real-world problems. A large number of R&D activities are being carried out by faculty members and students in several cutting-edge science and technology areas. However, most of these research outcomes do not get translated into commercial products, benefiting society in general, due to several reasons including the lack of interest of the industry in commercializing new and futuristic technologies. Chitkara University, thus, proposes to encourage interested faculty members and students to open companies, and be on the board of such companies in the capacity of a Director, Chairman, or any such role. It is expected that faculty members will make all efforts to balance their academic responsibilities while assuming the above role. The University aims to provide an ecosystem where the best-educated youth from its institutions and its alumni can reach his/her maximum potential. Any society peaks when a great number of its people have access to experiences that are in line with their life goals and this requires the development of increasingly complex skills. The necessity to develop increasingly refined skills is what lies behind the evolution of culture. By smoothly integrating the technological and creative skills of students to solve contemporary problems, Chitkara University aspires to kick-start an entrepreneurial culture, which contributes to increased knowledge, wealth and employment.

We Build Entrepreneurs

At Chitkara University, we are on a mission to increase our ecosystem's productivity by simplifying the task of connecting people with the right opportunities. Broadly speaking, we believe in first creating value within the ecosystem, and then sharing that value with our ecosystem partners, mentors, investors and startups. Our startup family has diverse dynamic tech startups who actively engage with each other to share success stories, failure lessons and sometimes, long-lasting friendships. We have a very strong E-Cell which aims at fostering the problem-solving abilities and spirit of the start-up ecosystem by providing the students with a platform that gives them several innovative opportunities to develop the entrepreneur in them. Our entrepreneurship cell provides professional mentorships and other employment opportunities for building an ecosystem for start-ups.

CEED OBJECTIVES

- i) To foster an ecosystem of entrepreneurship by promoting and supporting entrepreneurs from the University and /or its alumni.
- ii) To setup a vibrant startup ecosystem to align itself with our country's major policy initiatives of Make in India and Start-up India; Stand-up India.
- iii) To set up incubator facilities, and provide cost-effective infrastructural support and value-added services to startups as mentoring, legal, financial, technical and intellectual property related.
- iv) To support the region in creating a platform to nurture the creativity, innovation and entrepreneurial skills of faculty and students.
- v) To provide a platform for the speedy commercialization of technologies developed by faculty and students of Chitkara University.
- vi) To provide an accelerated path to monetization of ideas, services and products; through strategic partnerships with government, industry and financial institutions.

FOCUS ON STUDENT START-UPS

The idea is to encourage innovation and creativity there is no time and age to build an idea, so you can start early

FOCUS ON INDUSTRY NETWORK

The notion is to foster continuous and sustained engagement between large corporate and innovative technology ventures. We connect the startup to industry leaders for better exposure and knowledge to build their businesses.

PROVISION OF CEED FUND

Each year, CEED considers and screens the student startup for early stage and SEED money to motivate the startup and its idea.

PROVISION OF SUBSIDIZED INCUBATION SPACE

We help your startup to create, develop and design by providing an office space, where you and your team can brainstorm and work together as one unit. We have a physical co-working space for start-ups near Chandigarh-IT Park

FOCUSED ACCELERATION PROGRAM

We help the growth and development of entrepreneurial talent in youth. The acceleration program equips young start-ups with the tools and skills required to start and grow their successful business.

Start-up Orientation Workshop on Problem Statement Formulation

Date of Event: October 19 to 28-2021

Centre for Entrepreneurship and Education Development (CEED) Himachal Pradesh organized sessions on problem statements with the students of different schools/departments. The events were attended by aspiring and curious entrepreneurs. An ideal building exercise backed by 60-second elevator pitches was conducted in all six sessions. Five-seven teams of ten-twelve students each were formed on the spot, and each team had a founder presenter. Random business ideas based on existing problem statements were shared. The students of all departments/schools had learned to shape up an idea and problem into an opportunity or fruitful outcome as a product and start-up. In addition to this, five-seven meaningful potential ideas with solutions were born in this entrepreneurship-related workshop.

Schedule of Event:

S. No.	Date	Venue	Department/School	Participants
1	19/10/2021	Chenab Hall, Chitkara University, H.P.	Civil Engineering	50
2	20/10/2021	Chenab Hall, Chitkara University, H.P.	Computer Applications	80
3	20/10/2021	Chenab Hall, Chitkara University, H.P.	Pharmacy	70
4	25/10/2021	Chenab Hall, Chitkara University, H.P.	Business Studies	45
5	27/10/2021	Chenab Hall, Chitkara University, H.P.	Computer Science and Engineering	200
6	28/10/2021	Chenab Hall, Chitkara University, H.P.	Nursing	130

The details of the teams and the ideas are as follows:

Team Name –Blue Juice

Team Founder –Himanshu Dhiman

Idea - To manage the university transportation service

Problem – Parent or students can't see the real-time update of university transportation service and tracking of buses

Solution – Make an app that links all the buses along with details of conductors and drivers along with vehicle geolocation. Making tracking transport hassle-free.

Team Name –Under Dogs

Team Founder –Manvi Kanwar

Idea - Providing hempcrete at a low price.

Problem - The problem is the price of hempcrete is too high in the market and a lot of undue inflation is reported.

Solution – Developing a patented Formulation of better hempcrete material and providing it at a low price.

Team Name -Invincible

Team Founder -Sahil Gill

Idea - Lack of getting real-time update on public transport.

Problem - Wasting time waiting for public transport

Solution - Making an app that will give timely updates, and accurate location of public transport e.g., bus, auto.

Team Name -Rocketeers

Team Founder -Mridul Sharma

Idea - Low costing water purifiers.

Problem - Water purifiers are costly and most people are not able to afford them.

Solution - Make it a low-cost water purifier by using pebbles, sand, activated rice husk and charcoal for Rs. 1000/- per unit. Can be attached to CLAY water pots.

Team Name –The Bombardiers

Team Founder –Divyansh Dutt

Idea - Making innovative bridges and flyovers to lessen the traffic on roads

Problem – Increase in private vehicle registration and the increased vehicle burden on roads.

Solution – Layered Flyovers to be built on the roads to make more space for vehicles and lessen the traffic congestion in tier 1-2 cities.

Team Name -The Volatiles

Team Founder - Aditya Srivastava

Problem –Water problems, polluted drinking water

Solution – An automated candle that is driven by sensors and keeps cleaning the water. The idea can be elaborated.

Team Name -Tea Allrounders

Team Founder - Hrithik Sharma

Problem – Cell phone rings as a nuisance in meetings.

Solution – Phone silencing detector that automatically silences a cell phone when someone enters a hall or a meeting.

Team name –All-Stars

Team founder - Mukul Krishna

Problem – Lack of innovative pens for easy writing

Solution – Develop a multilingual pen device and a sensor

Team Name – Head honchos

Team Founder - Amandeep Singh

Problem – Heating, and cooling in an easy-carry 1-liter bottle

Solution – Develop a temperature-controlled water or beverage multipurpose bottle for all seasons.

Team Name -Vocal to local

Team Founder – Vaibhav Raghuvanshi

Problem –Lot of chemicals in writing ink that is hazardous for skin eyes and air.

Solution – Developing a natural ink through organic natural components, is affordable.

Team Name - Trojan

Team Founder - Abhishek Verma

Problem – Students that live far away from home and don't get good rich nutrient food.

Solution – Build a web application that provides tiffin services which will be value for money and health as well it also provides other healthy foods.

Team Name -AlphaMates

Team Founder – Swalak Sharma

Problem - Rain in the forest and damage to crops and difficulty for farmers.

Solution – Create a live web application for farmers that will alert them about the rain and other important weather forecasts so that they can take advantage of the application and make a profit.

Team Name - Punch

Team Founder - Krishna.

Problem –While using R.O, some minerals are harmful and not safe for drinking

Solution – Create a gadget that detects the harmful minerals present in a sample of water displays it on the application and provides a solution to remove the harmful minerals inside that sample.

Team Name -Robo

Team Founder – Neeraj

Problem - Default/damaged part of vehicles that causes an accident

Solution - Device setup software/Hardware that will analyze the whole system and will check the damage in the vehicle and will provide a solution for the damage it detects.

Team Name - Bravo

Team Founder - Natasha

Problem – skilled labourers not getting worked on roads

Solution – Create a web application or forum both for contractors and workers. So, contractors can easily hire the workers and the workers can apply for that job. It should be linked with contractors, labourers and worker's platforms for the skilled workers

Team Name - Punch

Team Founder –Rishabh Rawat

Problem – The rise of petrol/diesel prices hit the common man and unfortunately, it's affecting the environment

Solution – Create a new fuel with 5 elements out of which 4 elements will be natural and the last one will be the mix-up of 4 elements. That will be low in cost and affordable for everyone. It will also be compatible with every vehicle. It will be eco-friendly fuel and it will not affect the ecosystem in any. It will also produce a low amount of smoke.

Team Name – Creative India

Team Founder –Swastik Sood

Problem – Getting registration, details, and permission from different sources take much time and delay and late work of production houses

Solution – Creating a standalone department that is responsible for providing everything whatever the requirement will be there. It will save time cost and all the work will be done on time. That will be profitable for the production house as well.

Team Name – We are one

Team Founder – Neel Sachdeva

Problem – Interacting with different people across the country/continent, people face language barriers that raise miscommunication, misunderstanding in gestures, etc.

Solution – Creating a translator based on Artificial Intelligence that will be more helpful as compared to other translators. It will provide local translation as well. It will be enhanced with more features like it can play customized playlists in the person's preferred language.

Team Name – Desire

Team Founder – Saksham Garg

Problem – Army troops doing camp and while migrating to other locations they need to keep everything loaded inside their carriage which takes a lot of time and effort.

Solution – Make a portable camp suit that fits inside a single box and completes all needs of the troop including food, ammunition, water, meds, and all.

Team Name – Pirates

Team Founder – Vaibhav

Problem – Losing the most beautiful and close people is much more painful in someone's life is more than a disaster.

Solution – Creating an Artificial Intelligence (AI) that can read the behaviors of the person and then it can use the memory of the person he lost. Using his memory creates an AI-based holographic lens so the person feels relaxed and out of anxiety, depression, and OCD.

Team Name –Took Took

Team Founder–Chakshu

Problem – The vehicles have been the major problem day to day on crime scenes. There are numerous unregistered and theft vehicles with false registration details.

Solution – Come up with an application that makes a quick search of vehicle details using any of the small queries like engine number or vehicle owner name.

Team Name –Knight

Team Founder –Naman Bansal

Problem – At the time of search results on a respected and informative platform like Quora we can just view and comment on the post but we can't interact with the person who answered.

Solution – Adding a feature in Quora and another platform to create a meeting with encryption of 256-bit SHA authentication. To interact with the person so we can take more ideas to tackle our problem.

Team Name –Techno-Geeks

Team Founder – Sagar Mishra

Problem – Girls in our society don't feel safe these days they are scared of getting kidnapped/robbed, etc.

Solution – Create an application that can be activated by using voice commands or manually. That will alert the nearest police station and share all the details that as contact information and device location, and also it will share and alert the family member as well.

Team Name –Co-Co

Team Founder – Nikhil Sharma

Problem – It's a major problem if someone met an accident with no man highway and road it will be a problem to help that person

Solution – Create an Integrated Chip that will be fixed with the airbags of the vehicles once it opens it will inform the local police station and ambulance. The impact will be predicted based on the execution time of the airbag.

Team Name –Xonoster

Team Founder –Nitin Kumar Yadav

Problem – Working out in the gym and paying a lot of money to produce nothing

Solution – Researching in a mechanical way so that at the time of using gym machines they can produce electricity on the basis that the gym owner/organization will reduce the bills in customer registration and in this way, it will be helpful for the ecosystem as well.

Team Name –The Phoenix

Team Founder –Yashika Ahujas

Problem – Getting tired and demotivated at work kicks out the interest to work the employee

Solution – Creating an awareness program at each end of every office on weekends so they can express their emotion, ideas and feelings. It can be more interactive by playing games so they feel fresh and energetic.

Team Name –Finite Riders

Team Founder – Harinder Singh Khatra

Problem – Crypto coins cannot be tracked and that gives a chance for attackers and other bad people and organizations to fund them.

Solution – Creating a Cryptocurrency that can be tracked so will be helpful for the investigation team and government as well so it can be declared safe to use by people of the nation.

Team Name – Thunder

Team Founder– Harsheeta

Problem – Fresher's who don't get enough support at the time of start-up of a new product or idea for a company make them close the idea

Solution – Come up with a solution to provide enough support like providing buildings, offices, and staff with complete security and all security measures to start what they think and also help them in being productive and correctly guide them to implement.

Team Name – Jazba

Team Founder – Jaspreet Kaur

Problem – Urban areas face major problems of everyday life like health and education facilities

Solution – A team will be grouped to plan all the major facilities in an urban area. They will plan and work on providing facilities like a Hospital with an inbuilt school inside it. So, interested students can take part whether they are from that place or not. The staff will be responsible to educate those children.

Team Name –Power

Team Founder –Andalip

Problem – People who forget their daily routine to take meds and other important stuff.

Solution – Create a band that will work as a reminder so everyone can take care of their routine and help them in being punctual.

Team Name –Josh

Team Founder – Riya Sachdeva

Problem – At the time of surgery and medical operation doctors and surgeons forget their medical instruments.

Solution – Create an AI that will sense all the medical instruments and will take voice commands from the person and indicate the instrument wherever it will be kept.

Team Name –Dynamo

Team Founder –Arpita

Problem – Students and unemployed people who are unaware of where to start their first job

Solution – Awareness of freelancing. Creating an advertisement and a platform to update regular job vacancies will be updated every day. They will teach newbies about the process of getting it and achieving their aim in urban areas.

Team Name –Warriors

Team Founder –Isha

Problem –Homeless parents who feel alone without their family but they are abandoned so they don't have the choice to take shelter anywhere

Solution –Will provide them shelter, food, and all basic need to those to all the parents so they can feel reunited and should not miss their families. We'll also use their experience to solve common man problems and will discuss various issues.

BOOM OF FOOD-TECH STARTUPS

Date of Event: November 13, 2021

E-cell Core Team organizes, manages, and coordinates the prelude to JAZBA with a fever of enthusiasm. An Entrepreneurship development-focused event was organized. by Team E-cell at Chitkara University Himachal Pradesh today. Extending into the evening, the jam-packed event saw great participation from students from various academic departments. Four Start-up stories from Chitkara Start-up Ecosystem were highlighted. The new genre of student leadership at CUHP rocked the show with its moderating and event organizing abilities. Students from CSE Yashika, Harleen, and Arshita moderated various sessions as professionals in the field, with their confident oratory skills. Founders of food-savvy start-ups Momos Hunter, Chai Nagri, Cuddle a Cake and Tea Kombucha got candid with our next generation, future-ready student moderators. Ecell Team leaders Abhishek Chaurasia and Vinay from CSE kept the management of the event to its highest standards. Setting the context, an informative and enlightening inaugural speech was given by Dr. Manoj Manuja (Pro VC Chitkara University). He was accompanied by his colleagues Dr. Kuldeep Sharma (HoD CSE), Dr. Nitin Verma (Principal Pharmacy), Dr. Aditi Chandel (Asth. Proff. BBA),

JAZBA Foundation Day

Date of Event: November 17, 2021

Chitkara University names its E-cell JAZBA and sets its foundation day as 17th November 2021, in the Global Entrepreneurship Week, which is celebrated globally in November. Unveils the name JAZBA at its inaugural session on podcasting hosted by E-cell. The day-long start-up event, all four tracks on podcasting, blockchain technologies, global employability, and start-up incubation saw an encouraging response and a swelling number of students attending it. Resources persons Aryaman Verma, Dr. Puran Singh, Ms. Soumya Khurana, and Ms. Nupur Mahajan shared their valuable thought and work experience with the Student of Chitkara University HP. They motivated the students to work hard and think critically about their ideas. They also talked about the importance of E-Cells like Jazba in the educational institute imparting professional and technical education to students. Students were guided that how they can convert their creative ideas into reality. They shared how they have proceeded step by step in their journey of becoming a successful entrepreneur and helping hand to solve community problems. Mr. Aryaman's words will be inspirational while taking a step in investing "*Invest if you can lose*". Miss Soumya Khurana told us how we can make a fresh start in the world of podcasts. In the perspective of employability, Ms. Nupur presented an interactive session where students cleared their doubts, and last but not least Dr. Puran guided how the students can take advantage of Startup incubation and turn their ideas into reality.

OPEN HOUSE HACKDAY 2021

Date of Event: December 3, 2021

"The will to win - The desire to succeed - The urge to reach"

CEED Chitkara University, HP hosted an OPENHOUSE '**Hack Day 2021**' as a hackathon by Princeton Hive. Where leading expert Mr. Adit Goswami interacted with the participants shared precious details on Hackathon and made the session interactive. He welcomed all the participants with their ideas to negotiate with them in the future. He also throws some light on entrepreneurship and shared his motivational speech to motivate the youths. The session was only organized for the freshers of the University for Computer Science and Engineering Department where more than 300 students participated packed their bags for the biggest grand open house hackathon in the presence of Chitkara University Faculty. By the end of the day the session the participants enjoyed. They also got their answers for their respective questions which made them more interesting. The participants found the session useful and resourceful.

HACK DAY 2021 **(The day of Innovators and Avengers)**

Date of Event: December 10 to 11, 2021

Centre for Entrepreneurship Education and Development (CEED) Himachal Pradesh organized a never before World's first AI-based technologies hackathon where the new budding gems of Chitkara University Himachal Pradesh explored their great potential, a great show on cards where 17 potential start-ups from CSE 1st year ventured. The event was organized by Team Jazba. The event started with a fun-filled session on Entrepreneurship by Mr. Adit Goswami where he tells the students about the Entrepreneurial Mindset followed by David McDermott and Avery Maune. David McDermott one of the faculty said, "Block chain has a lot of misconceptions. People might say blockchain in the future, but it might change." Avery Maune told the students, "I wish we could use AI in Ecology. There is a big scope of human error in analysis. Animal traits show a lot about human behavior as well." The design thinking workshop was conducted in the evening by Mr. David McDermott where he inculcated the importance of design thinking in students. Hackday teams go on the floor and build their biz plans and BCM's. At the end of the event, prizes were distributed. Out of the top 5 ideas, 2 got money commitments. Harsh Srivastava and Team get the soft commitment of Rs.1Cr from Jury and Investor Mr. Akhilesh Jain and a confirmed commitment of Rs. 1 Lakh towards prototype development. Devain Sharma gets a mid-event on-the-spot non-equity investment of Rs 100000 (1 Lakh) from three lead investors.

- 1) Rs. 20,000 by Dr. Kuldeep Sharma (HoD CSE, CUHP)**
- 2) Rs. 50,000 by Akhilesh Jain**
- 3) Rs. 30,000 by Sumeer Walia (Director CEED, CUHP)**

The event ended on a great note by Dr. Manoj Manuja encouraged the students to work with full enthusiasm towards the prototype development and also ensured that all of the ideas will be patented.

BUILDING INDUSTRY-ACADEMIA CORRIDOR

Date of Event: December 23, 2021

Want to be entrepreneurs meet real entrepreneurs at the maiden Industrial visit of 2021 by Chitkara University Startups. 23-12-2021.

Chitkara University Himachal Pradesh Entrepreneurship cell JAZBA organized an industrial visit of its first batch of 12 Startup CEO's mainly from 1st year engineering. The visit was conducted at EMMBROS Automotive Pvt Ltd, a high precision items export unit and OEM, manufacturer of Axle Shafts in Baddi. Students got to experience real action on the ground and got inspired by the story of EMMBROS founder Mr. Ashok Mehta, who is a CA by profession, but took the plunge to build multicores enterprises in the Baddi region. He is also the author of the book "The World Around Axle Shafts" and a first-generation entrepreneur in the automotive industry with over 29 years of rich industrial experience in Manufacturing Automotive Differential and Drivetrain Parts, Manufacturing new and innovative parts have been the passion that pushed him to start his career by conceiving and starting a company for making Automotive Rear Axle Shafts way back in 1991. Students aimed to understand Industry used cases and problem statements, paving a way for a strong Industry-Academia Corridor initiated by the dynamic youth at Chitkara University.

ISBACON 2022

Date of Event: January 11, 2022

"Today's Start-ups are Industries of Tomorrow".

A strong representation from Chitkara Start-up Team was felt at the ISBACON 2022, an entrepreneurship event in process at Trident, Chennai. The congregation of Indian Incubators led by ISBA (Indian STEP"s and Business Incubators Association) saw an impressive turnout from its nationwide members. The unfolding event has some exciting sessions on the agenda, including a special visit to IIT Chennai's Research Park. Respectable State C.M Sh. M.K Stalin gave the opening address and encouraged Startups from other states and U.T to incubate and partner in T.N. An industry perspective on Incubators was given by Mr. H.K Mittal (Chair Startup India Seed Fund) in his impressive speech. Dr. Sumeer Walia (Director CEED, CUHP) was honoured to be a part of the opening panel with eminent personalities in the Indian Startup Ecosystem and share stories, on how Chitkara is successfully nurturing its Startups in North India and leading. Chitkara University and its incubator is a proud member of ISBA since 2016.

Talk show: Prototype Finance

Date of Event: January 12, 2022

Center for Entrepreneurship Education and Development(CEED), Chitkara University, Himachal Pradesh, organized a talk show on prototype finance in collaboration with Hisafe Electronics Pvt. Ltd under the aegis of MHRD Institution's Innovation Council (IIC), Chitkara University, Himachal Pradesh on January 12, 2022. The main purpose was to help the students understand Technology Readiness Level (TRL), and its implications in Innovation Development. Dr. Parikshit Bansal was the speaker. He has the first successfully incubated startup of Chitkara University, Himachal Pradesh, and has created three products namely Chlorinator, Aerosafe, and SmartCurve. Dr. Parikshit Bansal is a biochemist, having completed his Master's and Ph.D. in the area of Reproductive Biochemistry from NDRI, Karnal (1990). He is an expert member with the All India Council of Technical Education (AICTE), New Delhi, & also a nominated expert with the Arbitration and Mediation Centre of the World Intellectual Property Organization (WIPO), Switzerland. He was awarded international support for patenting of his invention, by the National Research Development Corporation (NRDC), New Delhi and TIFAC, New Delhi, 2001, Awarded support for prototype development of the invention, under the Tepp program of TIFAC, New Delhi, 2004-2011. Innovation successfully translated into a 'marketable product'- small wonder lyzed (www.wonderlyzer.com). Filed on nearly 15 patents relating to different inventions and translated 3 innovations into worldwide technology breakthrough products. Involved as an IPR expert in 3 sponsored studies, including " Impact of TRIPS on Pharmaceuticals, with specific reference to Generics in India"(2006). His specialties are Patent Drafting and Prosecution, Patent Licensing, Capture of Technology (COT) and Transfer of Technology (TOT), IPR, and Regulatory Affairs. Strategic Business Planning and IP management for enhancing business profits. Dr. Parikshit conducted the session very well and students got to know how to make their products for the market. He guided the student startups completely on how to innovate and make their product scalable as well as market-ready.

Working with the Government and Building Digital India

Date of Event: January 17, 2022

Center for Entrepreneurship Education and Development(CEED), Chitkara University, Himachal Pradesh, organized a talk show on Building Digital India in collaboration with Volume tree under the aegis of MHRD Institution's Innovation Council(IIC), Chitkara University, Himachal Pradesh on January 17, 2022. The speaker told the students which things are most important to scale a start-up. He quoted," The first thing is your vision and problem statement. Second is your Team, Third is Cultural Values , fourth is Passion and the last one is Networking." Students also got to know about unconventional jobs which will be of great help for a college student as by doing them one can cover their expenses easily at the college. The event ended with a round of Questionnaires and students got their questions and answered their doubts.

Some glimpses of the event:

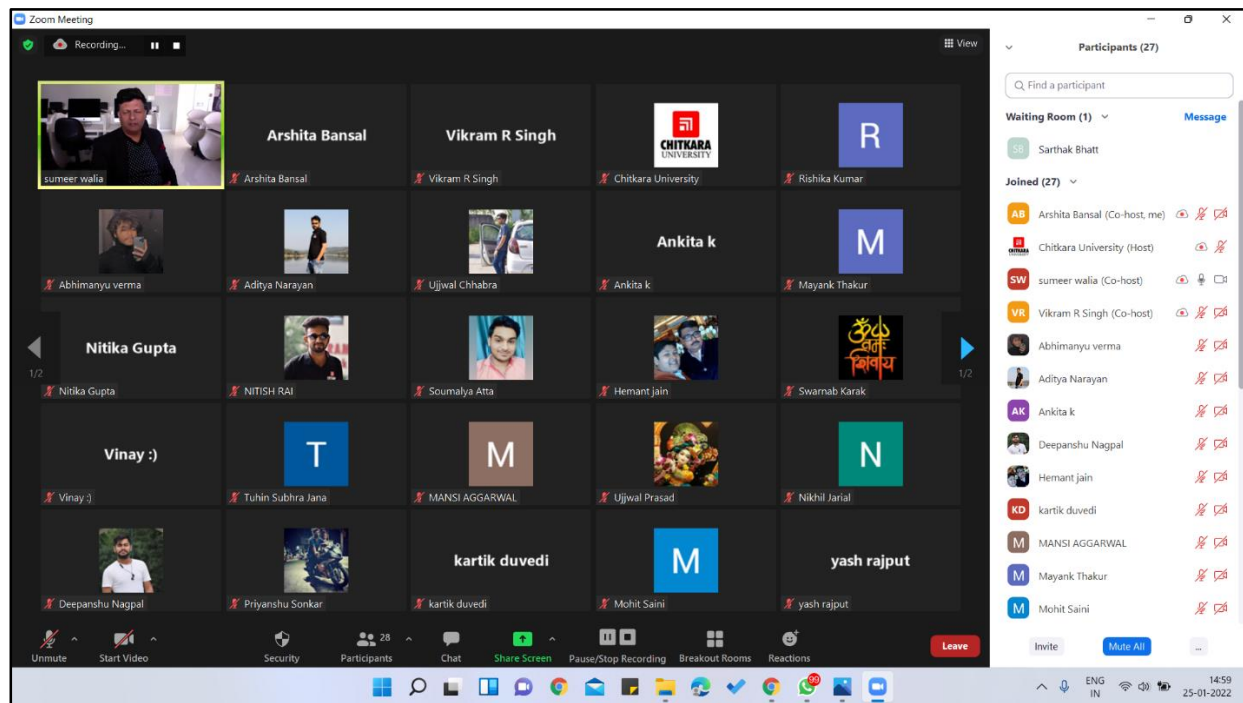

Understanding Blockchain

Date of Event: January 25, 2022

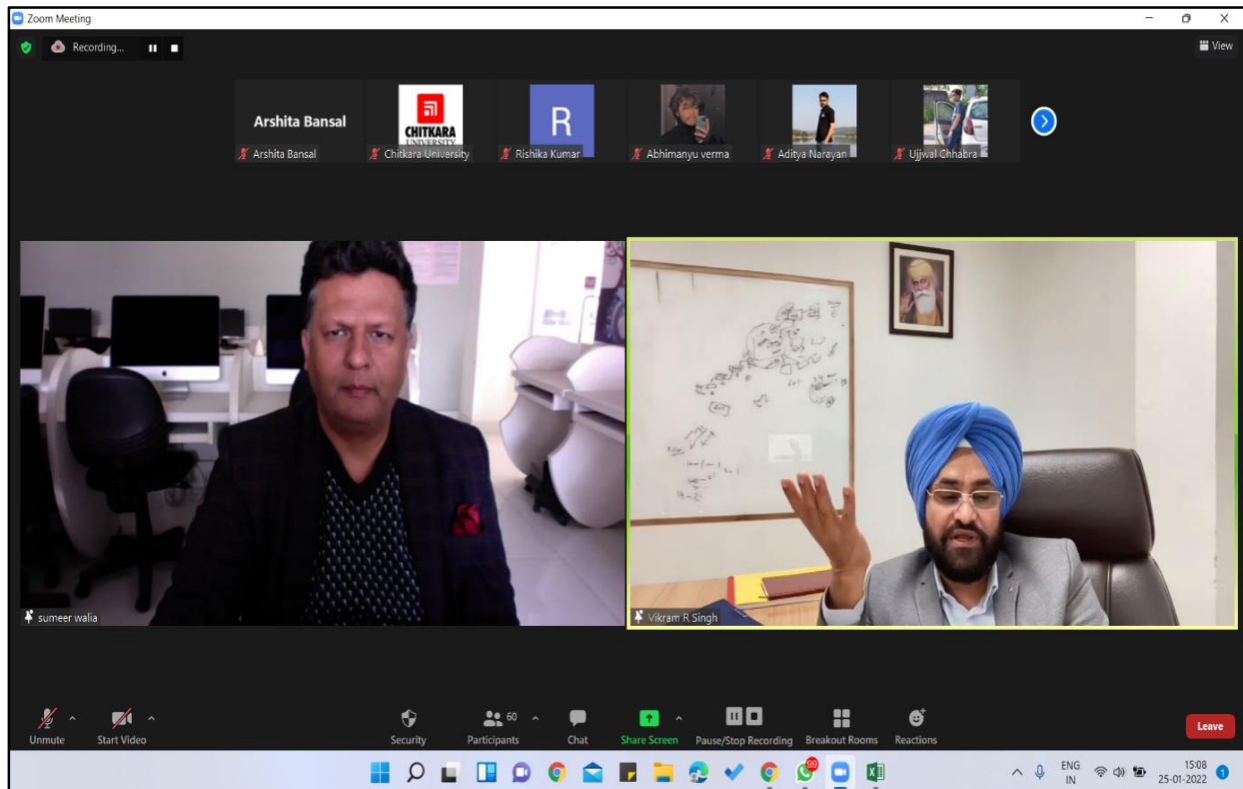

Center for Entrepreneurship Education and Development(CEED), Chitkara University, Himachal Pradesh, hosted an expert talk on Block-chain in collaboration with Antier Solutions Pvt. Ltd. under the aegis of MHRD Institution's Innovation Council (IIC), Chitkara University, Himachal Pradesh on January 25, 2022. Our goal was to teach students about this emerging technology and give them a roadmap to becoming successful in this field. As Founder & CEO of Antier Solutions, he leads business strategy & growth initiatives in areas of block-chain-enabled processes including finance. He quotes," Antier & I have grown year after year and trekked the journey that started with 5 team members and currently going stronger with 250+ professionals. I believe the block is the most significant disruption in the history of technology. It is transforming legacy finance into an automated ecosystem of decentralized currencies. With my team, I want to regale this ocean of opportunity through persistent upskilling and reskilling."

He told the students, very minute things about blockchain. Students got a keen interest to learn this emerging technology. In the end, students asked questions and got accurate responses.

ALUMNI FOUNDER SERIES

Date of Event: February 26, 2022

Center for Entrepreneurship Education and Development(CEED), Chitkara University, Himachal Pradesh, hosted the Alumni Founder series. The guest speaker for this event was Tushar Bhatnagar (Co-founder and CEO of Alpha AI) and Sharad Dabra (Founder and CEO of SD Academia). They were interviewed by Aditya Sharma (Executive member Jazba, Chitkara University HP). The speakers introduced their startups at the meeting. They told their life experiences and the struggles they faced while making their start-up. They also explained their ideas for improving the startup ecosystem of India. And, urged the budding entrepreneurs to be risk-takers and problem solvers. They talked about what an investor needs from a start-up and explained the importance of tech start-ups in the upcoming years. It was also the first time the interviewer Aditya Sharma (Executive member) learned a lot through this session and looks forward to being taken more such opportunities. We are thankful to team Jazba for taking the initiative of managing this big event and look forward to doing more such events.

EXPECTATION TREE EVENT

Date of Event: March 02, 2022

Jazba E cell core of Chitkara University Himachal Pradesh organized a one-to-many session with all the Hack Day participants and E Cell members. A brainstorming session was organized, in which all the members took part. During the session, we took all the reviews and feedback in form of a slack tree with all their expectation from the Jazba E-Cell CUHP. The main vision behind this slack of tree was to get everyone's expectations and work accordingly in such a manner that we can full fill the market and deliver the things as per need. There were some mixed expectations some were unrealistic and some realistic. Based on those the future projects of E-Cell and the way of working will go accordingly based on that. Apart from this many students took part and put their expectations. They were extremely joyful being a part of the session and moving forward in this. By the end of the day, everyone felt productive and interactive.

Study and Work Opportunities in the USA

Date of Event: March 25, 2022

Chitkara University, Himachal Pradesh, under the aegis of MHRD Institutions Innovation Council (IIC), conducted a session on "Study and work opportunities in the US and its universities with a specific discussion on Rider". The session was conducted by Mr. Jeffery Hutchison. Mr. Jeffrey Hutchison serves as the Director of International Admissions for Rider University, located in Lawrenceville, New Jersey. The students enjoyed the session and were very attentive and patient when the session was conducted. Mr. Jeffery did an excellent job in answering the student's questions and enlightened a spirit of learning among the students. He made the students believe that it is now not hard to study in the US. The session was hosted by Dr. Aditi Chandel (Asth. Proff. BBA) and the session was then taken over by Mrs. Ruchi. She conducted a workshop on Personality Development. The session ended with the testimonies of the students who used the AI Assessment tool by Princeton Hive. To summarize, it was a wonderful session which was not just a speaking session but a fun discussion between the students and the speakers.

Some glimpses of the Event:

Human Behaviour & Leadership

Date of Event: May 27, 2022

Center of Entrepreneurship Education and Development (CEED), Chitkara University, Himachal Pradesh, organized a talk show on Human Behaviour & Leadership in the collaboration with the aegis of MHRD Institutions Innovation Council (IIC). As a leader, you need to interact with your followers, peers, seniors, and others; whose support you need in order to accomplish your goals. To gain their support, you must be able to understand and motivate them. To understand and motivate people, you must know human nature. Human nature is the common quality of all human beings. People behave according to certain principles of human nature. Human needs are an important part of human nature. Values, beliefs, and customs differ from country to country and even from group to group, but in general, all people have a few basic needs. As a leader, you must understand these needs because they can be powerful motivators. If you want to be a good leader, you need to focus on these five cores that resonated the most with you. Purpose, Wisdom, Growth, Love & Self Realization. The Innovation and entrepreneurship HUB was launched by Pro-VC Dr. Manoj Manuja along with Mr. Sumeer Walia. The students really enjoyed and learned new things. It was an informative session they were also impressed; with how good the resource person was while answering their questions. Although, they wished the seminar could be longer. In the future, they also wanted to meet the resource person personally.
